25X1 2. We know from our early evaluations of these efforts
25X1 that the participants and in some cases their managers believe
that the courses are very helpful. For example, [redacted] is
now requiring that all of his people take the [redacted] Course.
I hope that the courses will have a substantial impact on the
Agency's work in the critical areas they address.

25X1 3. We, in the Office of Training and Education, are very
proud of this training effort, and we will continue to do our
best to serve our common goal of improving CIA's intelligence
product.
